JOB DESCRIPTION

Beacon Hill Analytics is seeking an Accountant with a strong data skill set to modernize financial reporting through SQL, Python, and business intelligence tools.

RESPONSIBILITIES

- Prepare financial statements and lead account analysis
- Build automated reconciliation and reporting pipelines in Python and SQL
- Create dashboards and KPI scorecards for leadership
- Perform valuation, due diligence, and risk assessment support
- Run scenario planning and trend analysis on operating results
- Maintain data quality across ERP and database systems
- Partner with IT on database management and access controls
- Coach teammates on analytics best practices

REQUIRED SKILLS

- Bachelor's degree in Accounting, Finance, or Data Analytics
- 3-5 years of accounting experience with a data or analytics focus
- Proficiency in SQL and Python
- Experience creating dashboards and KPI reports
- Strong knowledge of GAAP and variance analysis
- Experience with ERP systems and database management
- Excellent analytical skills

PREFERRED QUALIFICATIONS

- CISA, CFA, or Oracle certification
- Tableau or Power BI expertise
- Experience with due diligence projects
- Master's degree in Accountancy or MBA
- Experience with scenario and sensitivity modeling

TECHNICAL SKILLS

- SQL, Python, and database management
- Tableau and Power BI
- ERP systems (Oracle, NetSuite)
- Microsoft Excel (advanced)

SOFT SKILLS

- Analytical and critical thinking

- Storytelling with data
- Business partnering
- Curiosity and initiative
- Communication skills (written and verbal)
- Attention to detail
- Time management

BENEFITS

- Competitive salary and performance bonuses
- Comprehensive health, dental, and vision insurance
- 401(k) retirement plan with company matching
- Paid time off and sick leave
- Professional development and certification support
- Flexible work arrangements
- Career advancement opportunities
- Modern office environment with latest technology
